

RUTWIK HIWALKAR

Full Stack Software Engineer

London, UK | +44-07554509990 | rutwikhiwalkar@gmail.com | [LinkedIn](#) | [GitHub](#) | rutwikh.dev

EDUCATION

University of Surrey,

April 2026

Masters in Artificial Intelligence

GPA: 3.7/4

EXPERIENCE

Software Engineer (Part-time | Contract) | **Korecent Solutions**,

Oct 2024 – Jan 2025

ERP Migration (Oracle → ERPNext)

- Collaborated with **Chewy (Fortune 500)** on migrating ERP workflows from Oracle to **ERPNext** (built on **Frappe Framework / Python**), using **Jira** for sprint planning and feature delivery.
- Built core migration features including **vendor onboarding** and **cost change management** using **Python Javascript** and **VueJS**, accelerating the transition timeline.

Software Engineer | **Frappe Technologies**,

Aug 2021 – Jul 2024

Frappe Cloud Marketplace

- Scaled **Frappe Cloud Marketplace** from 60 to 185 published applications by shipping features like **paid apps**, **onboarding workflows**, **review system**, and **SLA management** using **Python** and **VueJS**.

Cloud Infrastructure & Cost Optimisation

- Delivered **1,000+ commits** and **100+ pull requests** as the 2nd highest contributor on the flagship cloud product built on **Frappe Framework (Python, JavaScript)**, **VueJS**, **AWS**, **Redis** and **MariaDB**.
- Reduced infrastructure costs by **\$1,500/month (\$18K annually)** by implementing region-wise customer data backup localisation on **AWS**, eliminating ingress and egress charges.
- Provided **L2 DevOps and on-call support**, handling maintenance and monitoring of production infrastructure using tools like **AWS CloudWatch**, **Prometheus**, **Grafana**, **Elasticsearch**, **Sentry**, and **PostHog** service dashboards.

SaaS Platform & Payments

- Developed the initial version of a generic **Fullstack SaaS platform** in **Python** and **VueJS** including signup flows, subscription management, and payment integration.
- Took ownership of the Frappe Cloud **revenue system and payment infrastructure**, built on **Stripe** and **Razorpay** diagnosing and resolving critical billing bugs to ensure reliable transaction processing

Third-Party Integrations

- Built a standalone **Zero-Config Email Delivery Service** using **Python** and **Mailgun**, enabling seamless transactional email without manual server configuration.
- Developed an **S3 Storage Integration** using **MinIO** as a third-party API on top of **Docker** and **Linux**, extending cloud storage for self-hosted deployments.

Permission Management & Security

- Designed and implemented a comprehensive **permission management system** for the Frappe Cloud platform, enforcing role-based access control and comprehensive IAM policy like management.

Frontend, Analytics & Developer Experience

- Maintained and revamped major iterations of the **Frappe Cloud UI dashboard** in **VueJS** and **JavaScript**, improving usability and consistency.
- Collaborated with the **Product Led Growth team** to optimise onboarding workflows, using **PostHog** for behavioural analytics and **Sentry** for failure tracking.
- Contributed to **5+ open source projects** and gave a talk at **Frappeverse Conference** on Application Marketplace and using **GitHub Codespaces** in cloud environments for rapid application development.

TECH STACK I'VE WORKED WITH

Frappe Framework(like Django), Django, FastAPI, Flask, Python, Javascript, GoLang, Vuejs, Docker, Ansible, Linux, AWS, Git, Github CI/CD, MySQL, MariaDB, PostgreSQL, Nginx, Graphana, Sentry, Elastic Search, PostHog, Cursor, Claude, Test Driven Development workflows
